Kelompok 11

Chacha Alisha Dewintasari (1305220036)

Yasmin Amelia (1305220099)

Valentino Fredrick Albert Mamesah (1305223104)

Theme

Manufacturing: production, inventory, orders, supply chain.

Scope System: lingkungan produksi dan pembelian barang perusahaan manufaktur.

Business Processes

• Proses Pengelolaan Perusahaan

Suatu perusahaan manufaktur dikelola oleh banyak *employee* yang mana salah satunya merupakan seorang *manager* yang mengatur penjualan di semua *platform* yang ada.

• Proses Rantai Pasokan

Dalam tahap ini, *supplier* bekerja sama dengan perusahaan manufaktur untuk me-*restock* komponen yang diperlukan perusahaan manufaktur untuk memproduksi suatu produk. Komponen yang diproduksi kemudian dikirim ke *inventory* perusahaan.

Proses Produksi

Dalam proses produksi, komponen yang telah tersedia dalam *inventory* akan digunakan oleh employee untuk memproduksi suatu produk. Semua kegiatan dan perkembangan produksi diawasi oleh seorang *manager*.

Proses Pembelian

Customer dapat memesan produk melalui semua platform yang disediakan oleh pihak perusahaan, kemudian produk akan dikirim ke customer sesuai ketentuan shipment yang berlaku.

Business Rules

1. <u>Satu atau lebih employee bekerja pada satu perusahaan manufaktur</u>

- 2. Sebuah perusahaan manufaktur hanya dapat dikelola oleh seorang manager
- 3. <u>Seorang employee</u> memiliki **posisi** sebagai <u>seorang</u> manager
- 4. <u>Satu supplier mengelola satu supplier</u>
- 5. Satu atau lebih supplier dapat memproduksi banyak component
- 6. *Component* tidak akan ada jika tidak ada *supplier* (weak entity)
- 7. <u>Satu atau lebih</u> *component* dapat menjadi <u>satu atau lebih</u> **stock** untuk direstock ke <u>sebuah</u> inventory
- 8. <u>Sebuah</u> perusahaan manufaktur **memiliki** <u>sebuah</u> *inventory*
- 9. <u>Satu atau lebih employee</u> dapat **memproduksi** <u>banyak</u> produk
- 10. <u>Satu atau lebih</u> *customer* dapat membuat <u>banyak</u> *order* jika <u>seorang</u> manager perusahaan menyetujui
- 11. <u>Satu atau lebih</u> produk dapat dikirim oleh <u>satu</u> distributor (*shipment*) kepada <u>satu atau lebih</u> *customer*

Entity Relationship Diagram Model

ERD Model Description

Strong Entity: Manufacturer Company, Employee, Manager, Product, Costumer, Inventory, Supplier

Weak Entity: Component

Attribute:

• Manufacturer Company

• Attribute: Company ID (PK), Name, Address, Contact

Foreign Key: Manager ID, Employee ID

Inventory

• Attribute: Inventory ID (PK), Quantity

Foreign Key: Company ID, Stock Order ID

• Restocking

- o Attribute: Quantity, Stock Order Date
- o Foreign Key: -

• Component

- o Attribute: Component ID (PK), Name, Price, Production Date
- o Foreign Key: Supplier ID
- Supplier
 - o Attribute: Supplier ID (PK), Name, Address, Contact
 - o Foreign Key: -
- Employee
 - o Attribute: Employee ID (PK), Name, Salary, Address, Contact
 - o Foreign Key: Product ID
- Manager
 - o Attribute: Manager ID (PK), Name, Salary, Address, Contact
 - o Foreign Key: Employee ID
- Product
 - o Attribute: Product ID (PK), Name, Price, MFG Date
 - o Foreign Key: -
- Shipment
 - o Attribute: Distributor ID (PK), Shipment Date, Distributor Contact
 - o Foreign Key: Product ID, Customer ID
- Customer
 - o Attribute: Customer ID (PK), Name, Address, Contact
 - o Foreign Key: -
- Order
 - o Attribute: Order ID (PK), Item Name, Price, Quantity, Order Date
 - o Foreign Key: Customer ID, Manager ID

Advanced Design:

- Associative Entities
 - o Product Shipment Customer
 - Component **Restocking** Inventory
 - o Customer Order Manager
- Unary Relationship
 - o Supplier Manage Supplier

Relational Schema

Functional Dependency

• Manufacturer Company

Company ID → Company Name, Address, Contact

Employee

Employee ID → Employee's Name, Salary, Address, Contact

Manager

EmployeeID, Manager ID → Manager's Name, Salary, Address, Contact

Product

Product ID → Product Name, Price, MFG Date

• Shipment

Shipment ID → Shipment Date, Distributor's Contact

Order

Order ID, Customer ID → Item Name, Price, Quantity, Order Date

Inventory

Inventory ID, Company ID → Quantity

Re-stock

Component ID, Inventory ID → Quantity, Stock Order Date

Component

Component ID → Component's Name, Price, Production Date

Supplier

Supplier ID → Supplier's Name, Address, Contact

Customer

Customer ID → Customer's Name, Address, Contact

Normalization

First Normal Form

Tidak ada multivalued attributes [1NF].

Second Normal Form

Tidak ada partial functional dependency [2NF].

Third Normal Form

Manufacturer Company

| Company ID Company Name Company Address Company Contact |
|---|
|---|

Employee

| Employee ID | Employee's | Employee's | Employee's | Employee's |
|-------------|------------|------------|------------|------------|
| | Name | Salary | Address | Contact |

Manager

| Employee ID | Manager ID | | Manager's Name | Manager's Salary | Manag Addres | | Manager's Contact |
|---------------------------|-------------|--------------------------|-------------------|---------------------|--------------------------|----|----------------------|
| Product | | | | | | | |
| Product ID Product | | t Name | Product Price | | MFG Date | | |
| Order | | | | | | | |
